

**FAYETTEVILLE**  
TOWN CENTER

### How it Works

- ✓ We set up custom packages to adapt to your event no matter what size or length.

### Tell us About the Event

- ✓ Is there food and beverage? Is it catered? Porcelain dinnerware? Buffet or plated meal?
- ✓ We work within your plan to establish the right system to collect and recycle all forms of waste possible.

### During Event

- ✓ Food Loops has their own waste station attendants who divert waste.

### Post Event

- ✓ Client is responsible for getting waste to the waste station during/after event.
- ✓ Food Loops hauls away the food waste, recycling, and glass.
- ✓ They guarantee it goes to the right place! They process all the food waste and compostable materials at their facility which then gets processed into sustainable compost ready to be used!

### Food Loops Does...

- ✓ Divert left over food to make compost
- ✓ Divert recycling items
- ✓ Take all waste to proper waste doc
- ✓ Provide diversion stats post event upon request

### Food Loops Does Not...

- × Tear down client decorations
- × Replace servers
- × Clean kitchen or kitchen items

### Divertible Items

- ✓ All glass bottles and jars
- ✓ All #1 & #2 plastic bottles
- ✓ All aluminum and steel cans
- ✓ All paperboard and cardboard
- ✓ Reusable plates etc. do not have to be diverted as they are reusable and the most sustainable option

### Non-Divertible Items

- × Styrofoam- plates, cups, to-go boxes etc.
- × Plastic cutlery
- × Plastic packaging or shrink wrap
